INTRODUCCIÓN
INTRODUCTION

Tecnología, calidad y diseño.

HUNO es la experiencia de todo un gran equipo de profesionales en el mundo la grifería y de los accesorios para baño.

Nuestras colecciones de grifos inspirados en la naturaleza, diseño, arquitectura y moda han sido desarrolladas para garantizar la máxima eficiencia de uso y cuidado del medio ambiente. Todo ello dentro de la innovación tecnológica para lograr dar respuesta a las necesidades del sector.

Ofrecemos una amplia gama de productos que proporciona a diseñadores de interiores, arquitectos y usuarios soluciones a sus proyectos. Además, dentro de toda nuestra oferta de grifería existen distintas posibilidades de acabados sometidos a estrictos ensayos de durabilidad y calidad.

¿QUÉ INCLUIMOS EN NUESTRO PRODUCTO?

- Barra de Latón de acuerdo con norma Europea.
- Certificación CE de todas las piezas incorporadas.
- Mecanización de piezas.
- Cromados de 1ª calidad y/o en colores lacados.
- Aireadores NEOPERL.
- Cartuchos y distribuidores GALATRON.
- Embalaje identificado.
- Grabado LÁSER del logotipo.
- Estudio y pruebas personalizadas para trabajo(s) específico(s).
- 10 años de garantía, contra defectos de fabricación.

Technology, quality and design.

HUNO is the experience of a whole team of professionals in the world of taps and bathroom accessories.

Our taps' collections inspired by nature, design, architecture and fashion have been developed to ensure maximum efficiency for the environment's care and use. All this within the technological innovation to be able to give an answer to the needs of the sector.

We offer a wide range of products that provide interior designers, architects and users with solutions to their projects. In addition to this, among our entire tap offer, there are different finishes possibilities subject to strict quality and durability tests.

WHAT WE INCLUDE IN OUR PRODUCT?

- Brass Pin, according to the European regulation.
- CE certification of all embedded components
- Mechanization of parts.
- Chroming first quality and/or color lacquered.
- Aerators NEOPERL.
- Cartridges and diverters GALATRON.
- Package identified.
- Laser engraving of logo.
- Study and personalized test for specific work.
- 10-year warranty against manufacturing defects.

TECNOLOGÍA HUNO
HUNO TECHNOLOGY

Tecnología HUNO TAPS

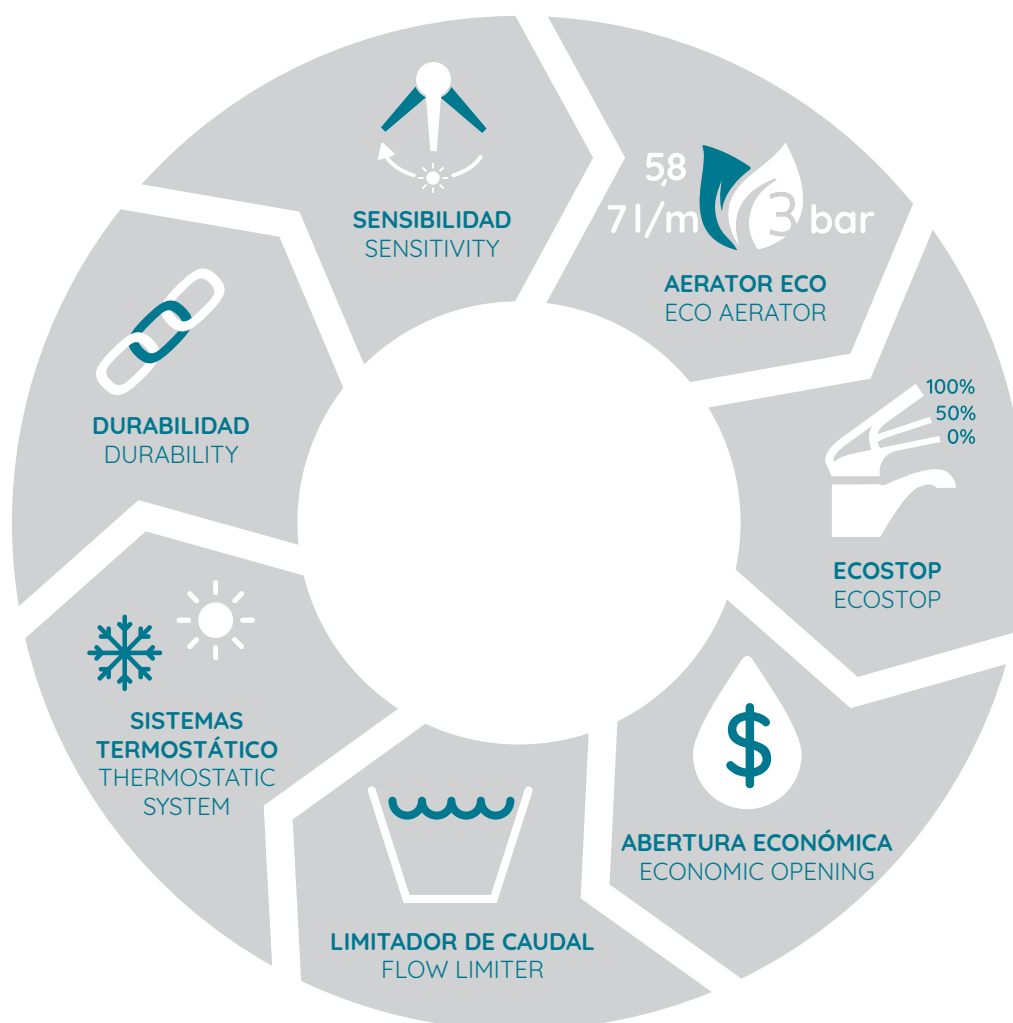

Siendo el líquido más precioso del planeta, el agua es inseparable de la vida en la Tierra y, como tal, es una condición esencial para el desarrollo de las actividades humanas.

El agua es pura, delicada y vital. Por estas razones, HUNO TAPS produce grifos con el más bajo consumo de agua posible, respetando y preservando al máximo este recurso tan precioso.

HUNO TAPS Technology

Being the most precious liquid on the planet, water is inseparable of life on Earth and is essential for human activity development.

Water is pure, delicate and vital element. For these reasons, HUNO TAPS makes taps with the lowest water consumption, respecting and preserving this so precious gift.

Aplicamos un control de calidad en todos los procesos de producción, garantizando así un alto nivel de calidad en todos los productos que fabricamos. El uso de materias de primera calidad y el estricto control en lo proceso de manipulación de materiales, garantizan al consumidor la alta calidad del producto.

We apply quality control in all production processes, ensuring a high quality level to all products we manufacture. The use of first quality materials and a rigorous control in the handling processes guarantees the consumer the high quality of the product.

ECO STOP

Nuestros monomandos disponen de un sistema de doble posición de caudal, lo que permite el ahorro de agua. Al accionar la palanca para abrir el grifo, el usuario nota una resistencia a un primer punto, donde se suministra el 50% del caudal. Si el usuario desea el caudal máximo debe abrir la palanca en la segunda posición.

APERTURA ECONÓMICA

Nuestro sistema permite realizar la apertura total de agua fría desde la posición central del mango, evitando el arranque de las calderas, calentadores y el consumo de agua caliente. De esta manera, tendremos un ahorro energético y el respeto por el medio ambiente.

LIMITADOR DE CAUDAL

Nuestros limitadores permiten determinar qué caudal máximo se desea, reduciendo el consumo de agua y manteniendo el confort de uso.

ECO STOP

Our basin mixers have a double flow position. This system offers the possibility to save water because when the consumer open the mixer, they notice a resistance point where 50% of the flow is provided. If the consumer wants, they can achieve maximum flow.

ECONOMIC OPENING

Our system offers the possibility of opening the cold water only with the central position of the handle, avoiding the start of boilers, water heaters and hot water consumption. That way, we will have a saving of energy and respect for the environment.

FLOW LIMITER

Our water limiting systems allow determine the maximum flow wanted, reducing water consumption and maintaining comfort of use.

SISTEMA TERMOSTÁTICO

Se evita el riesgo de quemaduras, así como el consumo excesivo de agua caliente. Permite limitar la temperatura máxima con el bloqueo del recorrido de la palanca en los monomandos.

DURABILIDAD

Nuestra grifería destaca sobretodo por su gran resistencia ya que todos sus componentes externos son metálicos, lo que permite una gran durabilidad con el paso del tiempo.

SENSIBILIDAD

Nuestros cartuchos permiten regular cómodamente la temperatura deseada. Además, nuestros cartuchos termostáticos reaccionan en menos de un segundo a variaciones de temperatura y caudal manteniendo la temperatura solicitada.

THERMOSTATIC SYSTEM

This system avoids the risk of burns and the excessive consumption of hot water. It permits to limit the maximum temperature with the button lock on the mixer handle.

DURABILITY

Our mixers are really resistant due all their external components are metallics, offering durability over time.

SENSITIVITY

Our cartridges can regulate the desired temperature comfortably. Furthermore, our thermostatic cartridges react in less than one second to temperature variations and can maintain the required flow temperature.

Technical specifications

Voltage supply	DC6V
Working pressure	1 - 7 bar
Pressure resistance closed (1 min)	35 bar
Life test	500.000 cycles
Max. Hot water	75°C
Flow rate (RhA)	10.8 l/min
Sensor activation time	<1 s
Protection against intrusion (control box)	IP 65
Protection against intrusion (sensor)	IP 67
Sensor detection distance	≤ 35 cm
Power consumption (standby)	< 0,2mW
Power consumption (flushing)	< 3W
Water Saving Function	Auto off adjustable up to 1 min
Thread	G 1/2 - 14
Battery type (included)	4 X AA 1.5V
Sensor detection angle	15 deg (conical)

TYPE	Water for hot and cold water	WORKING TEMPERATURE	5°C - 95°C
MIXING DEVICE	Embedded	STORAGE TEMPERATURE	5°C - 95°C
CONTROL	Latching	MATERIAL	Brass
WORKING PRESSURE LIMIT	0,5 - 8 bar	THREADED HOLES FOR INLET HOSES	M10x1
SUGGESTED WORKING PRESSURE	1 - 3 bar		
BATTERY TYPE	4 batteries lithium primary type AA 1.5V (included)		

Assembly sequence:

- 1 st - Install the tap without connecting any elements
 - 2 nd - Insert the 4 AA 1.5V lithium batteries
 - 3 rd - Open the water
 - 4 th - Connect the battery cable to the tap
- Note : When connecting, nothing can be in front of the sensor for about ± 3 minutes.
